

A close-up, high-contrast photograph of a black cat's face. The cat's fur is dark and textured. Its right eye is a vibrant, glowing green color, with a dark, slit-like pupil. The left eye is not visible, as it is in deep shadow. The background is solid black, making the cat's face the central focus.

Dolina[®] Noteci

SUPERFOOD

Why choose Dolina Noteci Superfood pet food for adult cats?

- Your cat is special, therefore we have created something completely new! Dolina Noteci Superfood wet cat food is an innovative line which fully covers the demand for all nutrients, minerals and vitamins. Its formula is based on high quality meats, fish and crustaceans, taking into account specific nutritional requirements of adult cats - carnivores. Daily and long-lasting use of Dolina Noteci Superfood series provides ingredients which have been scientifically proven to have a dietoprophylactic effect on your pet's body. There is a reason why this line of cat foods is called Superfood, as it contains valuable functional additives such as: blue mussel, spirulina, peppermint, fenugreek seeds and flaxseed which have beneficial influence on the entire organism, mainly on the proper functioning of the digestive system, skin and hair coat as well as joints.

**A complete pet food for adult cats of all breeds

Energy value: 95 kcal/100 g.

Dolina[®] Noteci

PREMIUM

Why choose Dolina Noteci Premium adult cat food?

- They satisfy the specific nutritional requirements and taste preferences of adult cats of all breeds.
- They cover 100% of daily requirements for all nutrients, minerals, vitamins and active substances (taurine and fatty acids).
- By stimulating and controlling all metabolic processes, they ensure constant body weight without nutrient deficiencies.
- Fatty acids of the n-3 family and arachidonic acid derivatives of the n-6 family - an acid which cats do not synthesise - play a special role in cat nutrition. These fatty acids occur naturally in the raw materials used to produce the food.
- Taurine is added (500 mg/kg) to ensure proper calcium levels and to stabilise cell membranes, which protect nerve cells from damage.
- The addition of psyllium husks and seeds supplements the cat's diet with valuable ingredients which guarantee proper development and stimulation of processes as part of the digestive tract. The food has prebiotic properties which stimulate the cat's beneficial intestinal microflora and inhibit the decaying microflora. They have a great influence on the defensive functions of the entire organism.
- They are precisely composed in terms of the content of all mineral components with particular attention paid to the correct amount of calcium and phosphorus which guarantees the correct interaction of the skeletal and muscular systems.
- Owing to the production method and the precise selection of raw materials, this pet food characterised by high digestibility coefficients of all nutrients and perfectly adapts to the nutritional requirements of adult cats of all breeds.

**A complete pet food for adult cats of all breeds
– salmon fillet**

pouch 85 g, can 185 g

Composition: salmon fillet 70%, salmon stock, minerals, Plantago seed 0.1%, powdered beetroot juice.

Analytical constituents: crude protein – 13%, crude fat – 4.5%, crude ash – 1.5%, crude fibre – 0.3%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, DL-methionine – 2400 mg.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, DL-methionine – 2400 mg.

Energy value: 79 kcal/100 g.

**A complete pet food for adult cats of all breeds
– turkey breast fillet**

pouch 85 g, can 185 g

Composition: turkey breast fillet 70%, turkey stock, minerals, Plantago seed 0.1%, powdered beetroot juice.

Analytical constituents: crude protein – 14%, crude fat – 3.5%, crude ash – 1%, crude fibre – 0.3%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, DL-methionine – 2400 mg.

Energy value: 83 kcal/100 g.

**A complete pet food for adult cats of all breeds
– chicken breast fillet**

pouch 85 g, can 185 g

Composition: chicken breast fillet 70%, chicken stock, minerals, Plantago seed 0.1%, powdered beetroot juice.

Analytical constituents: crude protein – 14%, crude fat – 3%, crude ash – 1%, crude fibre – 0.3%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg, DL-methionine – 2400 mg.

Energy value: 80 kcal/100 g.

**Dolina[®]
Noteci**
PREMIUM

**Dolina[®]
Noteci**
PREMIUM *Sterilised*

Why choose Dolina Noteci Premium Dish adult pet food?

- It provides a balanced meal based on the most up-to-date nutritional recommendations for adult cats. As a result of a modern production method and a precise selection of raw materials, this pet food is a product characterised by high digestibility of all nutrients.
- It contains:
 - 65% meat and animal products or fish and fish products,
 - tuna meat,
 - source of protein and n-3 acids, as well as arachidonic acid, essential in cat's diet, which, among other things, contributes to the condition of fur,
 - rabbit meat,
 - source of protein and n-6 acids, which play an important role in proper functioning of the skin and affect the quality of fur,
 - calcium and phosphorus in the correct ratio to ensure correct interaction of the skeletal and muscular systems.

Why choose Dolina Noteci Premium pet food for sterilised cats?

- It covers 100% of their requirements for all nutrients, minerals, vitamins and active substances specific for cats (taurine and fatty acids).
- It is a balanced meal adapted to the changes in their organisms caused by the sterilisation procedure - increased risk of overweight and obesity and accompanying diseases.
- They contain:
 - 55% meat and animal products,
 - L-carnitine, which increases the utilisation of energy and improves the metabolic rate,
 - ammonium chloride and DL-methionine - substances that acidify the urine and prevent the formation of crystals and uroliths,
 - fructooligosaccharides, which have prebiotic properties and stimulate digestive processes,
 - Psyllium seeds, which regulate the digestive system.

**A complete pet food for adult cats of all breeds
– tuna dish**

pouch 85 g

Composition: tuna 31% (carcass), broth, beef 20% (meat, lungs, hearts, liver), chicken 15% (meat, liver, gizzards, skins), pork 4% (meat), minerals, salmon oil 0.8%, powdered beetroot juice.

Analytical constituents: crude protein – 11%, crude fat – 5%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 80%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

Energy value: 88 kcal/100 g.

**A complete pet food for adult cats of all breeds
– rabbit dish**

pouch 85 g

Composition: rabbit 31% (meat 15%, liver, kidneys), broth, beef 20% (meat, lungs, hearts, liver), chicken 15% (meat, liver, gizzards, skins), pork 4% (meat), minerals, salmon oil 0.8%, powdered beetroot juice.

Analytical constituents: crude protein – 11%, crude fat – 5%, crude ash – 1.5%, crude fibre – 0.5%, moisture – 81%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

Energy value: 85 kcal/100 g.

Dolina[®] Noteci

PREMIUM
Junior

Why choose Dolina Noteci Premium dish for kitten?

- It covers 100% of daily requirements for all nutrients, minerals, vitamins and active substances specific for cats (taurine and fatty acids).
- It is an easily digestible product, perfectly adapted to the nutritional requirements of kittens from the very beginning of their independent life.
- It ensures appropriate mineralisation of bones and teeth and, by stimulating all metabolic processes, guarantees appropriate growth and development.
- It contains:
 - 60% meat and animal products,
 - whey protein,
 - providing amino acids and lactoglobulins which have a strong influence on the function of the digestive tract and stimulate the activity of selected digestive enzymes,
 - salmon fat - source of fatty acids: EPA and DHA determining the optimal development of the nervous system of young organisms, contributing to the reduction of inflammatory processes and activating the muscular system,
 - yeast - source of prebiotic ingredients,
 - beta-glucans stimulating digestive processes in the gastrointestinal tract and affecting the defence functions of the young organism.

A complete pet food for kittens of all breeds from three months of age – lamb dish

pouch 85 g

Composition: lamb 31% (meat 15%, liver, hearts), broth, beef 20% (meat, lungs, hearts, liver), chicken 15% (meat, hearts, liver, skins), pork 4% (meat), salmon oil 2.6%, whey protein powder 2%, minerals, dried brewer's yeast, fructo-oligosaccharides, Plantago seed, powdered beetroot juice.

Analytical constituents: crude protein – 13%, crude fat – 6%, crude ash – 1.5%, crude fibre – 1%, moisture – 77%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

Energy value: 102 kcal/100 g.

A complete pet food for kittens of all breeds from three months of age – cod dish with sardines

pouch 85 g

Composition: cod 31% (carcass), broth, beef 15% (meat, lungs, hearts, liver), sardines 10% (carcass), chicken 10% (meat, hearts, liver, skins), pork 4% (meat), salmon oil 2.6%, whey protein powder 2%, minerals, dried brewer's yeast, fructo-oligosaccharides, Plantago seed, powdered beetroot juice.

Additives: nutritional additives/kg: Vitamin D3 – 240 IU, Vitamin E – 95 mg, Vitamin C – 50 mg, Zinc (zinc oxide, zinc chelate of glycine, hydrate) – 13 mg, Manganese (manganous sulphate, monohydrate) – 0.5 mg, Iodine (calcium iodate, anhydrous) – 0.4 mg, Copper (copper (II) sulphate, pentahydrate) – 0.2 mg, Taurine – 800 mg.

Energy value: 102 kcal/100 g.

Dolina[®] Noteci

PREMIUM

Why choose Dolina Noteci Premium adult cat food?

- It is unique for high content of meat and animal products, to provide cats with a diet in line with their nature. Selected meats are used to make this pet food exceptionally palatable.
- It is enriched with taurine, which belongs to the biogenic amino acids. This compound is essential for the proper functioning of cat's body and guarantees the correct course of all its physiological functions.
- It is enriched with a set of appropriately balanced vitamins and minerals necessary for maintaining your pet's health.
- It does not contain cereals, which are a source of carbohydrates that may contribute to overweight and obesity.
- It is free from preservatives, artificial flavours and flavour enhancers.
- Its moist texture favours hydration, which is particularly important in the prevention of nephrolithiasis.
- It has a simple composition and consist of large pieces of meat, which makes it attractive for cats.

Energy value: 98 kcal/100 g.

Dolina[®] Noteci

PREMIUM
Junior

Why choose Dolina Noteci Premium pet food for kittens?

- It covers 100% of daily requirements for all nutrients, minerals, vitamins and active substances specific for cats (taurine and fatty acids).
- Turkey meat is easily digestible and low in calories, yet satiating and rich in protein - for these reasons it is an excellent food for kittens and young cats during the period of intensive growth.
- It is a source of zinc and B vitamins, which take care of skin health and coat condition.
- It contains:
 - salmon oil, which provides fatty acids essential for the proper development of the kitten's nervous system,
 - yeast, fructooligosaccharides and Plantago seed to support the digestive system.
