

LUGER'S

PET FOOD FOR DOGS

DAILY PLEASURES

Luger's high-quality air dried dog food offers a unique alternative to traditional homemade meals prepared for our four-legged companions. It is distinguished not only by its excellent taste, but also by richness of essential nutrients crucial for maintaining optimal health and condition of animals. The secret of its top quality lies in the gentle drying process at low temperature, which preserves full nutritional value. This food combines freshness and high quality ingredients - primarily a rich source of protein, such as meat and offal, as well as carefully selected vegetables and herbs. This balanced composition ensures that dogs receive not only essential nutrients but also vitamins, macro- and micronutrients that support daily activity, good health, and vitality. Therefore, air dried food is not only a delicious choice, but also a holistic option that supports health, providing comprehensive care for proper development and well-being of a dog.

TRAINING TIME

Training treats play a crucial role in fostering a strong bond between you and your furry friend while facilitating effective training sessions. These bite-sized, flavourful snacks serve to encourage learning and reinforce positive behaviour. They streamline the process of introducing new commands and cultivating desirable habits, all while offering a healthy, low-calorie alternative to conventional snacks. Choosing premium-quality treats demonstrates your commitment not only to enhancing your dog's abilities but also to prioritizing his overall well-being. Investing in these treats ensures a harmonious relationship and the satisfaction of both you and your beloved pet.

DAILY PLEASURES

Luger's Daily Pleasures line of wet food is designed for daily nutrition of adult dogs of all breeds. Precisely selected composition and proportions of the highest nutritional value ingredients meet the requirements for all essential nutrients, taking into account modern dietary guidelines. The basis of the food's recipe is high-quality meat and offal. This ensures that adult dogs receive adequate amounts of complete protein rich in all essential amino acids, fat, along with both saturated and polyunsaturated fatty acids, as well as vitamin and mineral components. The addition of vegetables provides necessary carbohydrates to guarantee the proper functioning of all metabolic processes. Bioactive substances, such as powdered beetroot juice and rosemary, protect against the negative effects of oxidative stress and, through their influence on the secretory activity of the gastrointestinal tract, regulate digestion processes. The diverse composition, presence of many valuable additives in the recipe and the production method ensure high palatability of Luger's Daily Pleasures line of food.

PUPPY'S TIME

Luger's Puppies' Time line of wet food includes all essential nutrients necessary to ensure proper growth of puppies. Providing appropriate, complete nutrition for dogs during this period guarantees health and correct further development of the organism. Therefore, the composition of Luger's Puppies' Time food has been precisely developed according to the nutritional recommendations for this growth phase. High-quality meat and offal used in the production provide complete protein and essential n-3 and n-6 fatty acids, crucial for puppies. Appropriate energy density of the food and proportions of mineral components ensure suitable development of the skeletal and muscular systems. Brewer's yeast, a natural source of many biologically active compounds stimulating digestive functions, provides prebiotics: mannanoligosaccharides and β -glucans. Powdered beetroot juice, dried rosemary and cranberry increase the amount of antioxidants and substances positively affecting various functions of the developing body.

PUPPY'S TIME

with rabbit liver,
spinach and cranberry

A complete pet food for puppies and young dogs of medium and large breeds with rabbit liver, spinach and cranberry

Composition: beef 35% (meat 20%, lungs, hearts, tripes), pork 20% (meat 15%, kidneys, liver), broth, chicken 10% (carcass 5%, hearts, gizzards), rabbit 10% (liver), spinach 4% cranberry 4%, minerals, linseed oil 0.2%, dried brewer's yeast 0.2% (containing prebiotics: mannanoligosaccharides and β -glucans), powdered beetroot juice, dried rosemary 0.01%.

Analytical constituents: crude protein – 10.5%, crude fat – 6.5%, crude ash – 2.5%, crude fibre – 0.8%, moisture – 78%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

STARTER

Luger's Starter is a complete wet food intended for lactating bitches and puppies from weaning up to the second month of life. The composition of this food has been precisely developed according to the specific nutritional needs during this demanding period. Providing appropriate nutrition at this stage guarantees correct development of young organisms, while helping to maintain the good physical condition of the nursing mother. Diverse sources of animal protein used in the production provide highly digestible protein and the appropriate energy density necessary during the period of intensive growth and lactation. The addition of eggs and whey protein increases the nutritional value of the food, providing substances positively affecting the building and regeneration of tissues.

Composition: pork 25% (meat 15%, liver, gullets), turkey 15% (meat 5%, hearts, liver), veal 10% (meat 5%, tripe), eggs 5%, whey protein 2%, salmon oil 1.5%, linseed oil 0.5%, minerals, dried brewer's yeast 0.55% (containing prebiotics: mannan-oligosaccharides 0.03% and β -glucans 0.03%), Plantago seed 0.15%, powdered beetroot juice, dried rosemary 0.01%.

Analytical constituents: crude protein – 11%, crude fat – 7%, crude ash – 2%, crude fibre – 0.8%, moisture – 79%, calcium – 0.3%, phosphorus – 0.28%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

Energy value: 99 kcal/100 g.

SILVER'S DAILY BITES

Feeding older dogs should consider the natural and physiological changes occurring in their bodies. Precisely selected composition of Luger's Silver's Daily wet food and the proportions of individual ingredients meet the requirements for all essential nutrients, considering modern dietary guidelines. Importantly, the energy density of these products has been reduced. The basis of this food's recipe is meat and offal, ensuring that senior dogs receive complete protein rich in all essential amino acids and fat, along with predominantly polyunsaturated fatty acids. Most vitamin and mineral components consider the metabolic specificity of older dogs. Addition of vegetables provides the necessary carbohydrates to ensure proper functioning of all metabolic processes. Bioactive substances in powdered beetroot juice and rosemary protect against the negative effects of oxidative stress and regulate digestion processes. An important addition to senior dog food is chondroitin sulfate, which supports the proper functioning of the musculoskeletal system.

SILVER'S DAILY BITES

with chicken, turkey
and potato

A complete pet food for older dogs of all breeds with chicken, turkey and potato

Composition: beef 30% (meat 12%, lungs, hearts, udders), broth, pork 15% (meat 5%, kidneys, liver), chicken 10% (liver 5%, meat 3%, carcass), turkey 10% (meat), potato 4%, minerals, powder cellulose, linseed oil 0.2%, powdered beetroot juice, glucosamine 0.01%, chondroitin sulphate 0.01%, dried rosemary 0.01%.

Analytical constituents: crude protein – 8.5%, crude fat – 5%, crude ash – 2.3%, crude fibre – 1%, moisture – 81%, calcium – 0.3%, phosphorus – 0.25%.

Additives: nutritional additives/kg: Vitamin D3 – 450 IU, Vitamin E – 40 mg, Zinc (zinc oxide) – 30 mg, Manganese (manganese (II) oxide) – 2 mg, Copper (copper (II) sulphate, pentahydrate) – 0.4 mg, Iodine (coated, granulated calcium iodate, anhydrous) – 0.3 mg.

LITTLE'S MOMENTS

Luger's Little's Moments dog food is a complete and balanced diet designed for the nutrition of small breeds dogs. The metabolism of these animals necessitates higher demand for all nutrients, resulting in higher energy and nutritional density. Luger's Little's Moments food ensures diverse range of ingredients – meat and offal – selected with proportions that maintain high nutritional value of protein and fat. Minerals and vitamins also consider the metabolic specificity of small breeds dogs. The addition of raw materials of plant origin provides easily digestible energy sources essential for proper stimulation of metabolic processes. Plantago seed, as a source of dietary fiber, support digestion and bowel regulation. Selection of ingredients and production method guarantee high palatability of Luger's Little's Moments food, contributing to proper growth and development.

LITTLE'S MOMENTS

with veal, tomato and parsley

A complete pet food for adult dogs of small breeds with veal, tomato and parsley

ON SPECIAL OCCASION

Luger's On Special Occasion food exemplifies unique approach to the nutritional needs of adult dogs. This line features mono-protein food based on sources of high-quality protein and fat, distinguished by exceptional taste qualities. Simple composition and use of a single source of animal protein—beef, game, chicken, lamb, or turkey—allow for individualized feeding plans for almost any adult dog showing symptoms of food allergies. Addition of vegetables, such as potatoes, tomatoes, and beet roots, provides necessary carbohydrates to ensure proper functioning of all metabolic processes. Luger's On Special Occasion food is a complete and balanced diet that covers the requirements for all mineral and vitamin components in proportions that meet the nutritional needs of adult dogs.

ON SPECIAL OCCASION
